

FIELDS AND FACILITIES

In some cultures and conflict regions, it may be inappropriate or too dangerous for girls to play outside. Girls' teams are often at the bottom of the hierarchy for access to sport spaces.

STRATEGIES:

- Seek alternative fields or courts or find times when these spaces are not being used (e.g. partner with local schools).
- Build partnerships with community decision-makers.
- Include field/court space in the programme budget to ensure girls' safety.
- Create or build mobile equipment that you can take with you when finished playing.
