

Gender-Sensitive Safeguarding Resources

Safeguarding encapsulates all actions taken to promote safe sport and to prevent, reduce, and respond to violence, harassment and abuse. Adding a gender-sensitive lens to safeguarding means acknowledging gender norms, roles, and inequalities, and actively incorporating them into your safeguarding approaches.

While all athletes can experience harm in sport, gender and sexual identity can influence vulnerability to different forms of harm. For example, women and girls are disproportionately affected by sexual harassment and abuse, while men and boys are more likely to experience physical violence, and LGBTQ+ athletes face elevated risks across multiple forms of interpersonal violence. Gender-sensitive safeguarding practices address these unique risk factors and reflect the needs of people of marginalised genders while seeking to create safer sports environments for all.

This resource list will help you implement gender-sensitive safeguarding by taking actions aligned with each of the [8 International Safeguards](#), including specific resources for addressing gender-based violence and LGBTQ+ inclusion.
